ISTRIA – LAND OF GREAT WINES AND RICH HISTORY

Istria has a long tradition of winemaking. Ancient Romans, always looking for best agricultural land in their vast empire, settled on Istrian peninsula and its fertile red soil as ideal for vineyards and olive orchards. Istrian wine and freshly pressed olive oil was taken to the neighbouring town of Aquileia, one of the largest ports in the Roman Empire, and from there transported to Rome and other cities throughout the Empire.

In the mid-19th century, admiral Hans Birch Dahlerup decided to build the biggest naval port of the Austro-Hungarian Monarchy on the tip of this beautiful but by then almost forgotten peninsula, in the city of Pula. In the next 20 years, Pula was to become one of most popular hubs of the Monarchy – public gas, tram and railway were introduced; beautiful hotels, army officers' villas, public beaches, astronomical observatory, theatre and shipyard were built - and brought prosperity to the entire region. At the end of the 19th century, Vienna industrialist Paul Kupelweiser built an elite resort and tourist centre on the Brijuni Islands, that in the 1950s would become the summer residence of the former Yugoslavian president Josip Broz Tito.

Built in white Istrian stone and located across the Brijuni Islands, in the immediate vicinity of the biggest Austro-Hungarian fort in this area, Stancija Meneghetti was a place where officers and their guests would come to rest, have a glass of wine or some home-made cheese and dry-cured ham. After the fall of the Austro-Hungarian Empire, the patina of forgetfulness and abandonment unfortunately set upon Stancija and that veil was only lifted in 2001, when the property was taken over and completely renovated by Romana Kajfež and Miroslav Plišo, who planted olive trees and grape vines on the estate, thus starting a whole new chapter in its history which continues to this day.

Meneghetti is located near the coast, only 1.8 km away from its own beach. 8 km away from the estate you can find the picturesque medieval town of Bale/Valle, which developed around the former Roman fortress Castrum Vallis. A 15-minute drive will take you to a small fishing town Fažana with a regular boat service to the Brijuni National Park, known for its natural beauty and a golf course. Rovinj, a striking example of Venetian architecture and a magnet for tourists is situated 20 km away, whereas the distance to the largest Istrian city of Pula and its famous amphitheatre is only 18 km.

We wish you a pleasant stay at our hotel! Explore and experience all the best that Istria has to offer!

SAFETY INFORMATIONS

In a case of fire

Hotel Meneghetti is equipped with an automatic addressable fire alarm system. Our staff has been specially trained to handle all exceptional situations. The hotel is equipped with fire-fighting equipment and alarms (fire extinguishers, hydrants and manual alarms). In case of fire or other exceptional situations, the hotel staff will instruct you.

Escape routes

We suggest that you become acquainted with the escape routes in case of emergency. Take note of where the chests with fire-fighting equipment and manual fire are located.

Study your room

Study the evacuation plan and fire safety procedure that are posted on the inside of the door to your room. Determine the shortest route from your room to the emergency exits. Count the doors from your room to the emergency exits.

If you discover a fire

If you discover a fire in your room, try to extinguish it immediately, activate the closest manual fire alarm by breaking the glass and dial the reception. Try to provide as much information as possible about the fire (precise location, cause and intensity of the fire, and whether someone is trapped by the fire).

When you hear an alarm

When you hear an alarm, try to remain calm and follow the instructions from the hotel management of the public address system. When the alarm is turned on, all the fire – safety doors and fire walls will close, but can be used for evacuation. In emergency situations the hotel staff will help you leave the hotel.

Evacuation

Take your key, personal documents and most important belongings. Open the door cautiously, being careful of the smoke, and follow the illuminated signs to the emergency exit. If there is thick smoke in the hall, stay in your room with the door closed and wait for further instructions. In the event of thick smoke, walk in a crouched, bent – over position of crawl, keeping your head low in order to avoid smoke inhalation. Count the doors to the emergency exit. Guide yourself by touching the wall if visibility is insufficient.

If the staircase for the emergency exit is free, exit the hotel by following the instructions that you receive via the public address system or a staff member. If a staircase is full of smoke or engulfed by flames, look for another staircase. Please do not use elevator as this is priority evacuation way for a person with a disability, follow the emergency exit signs.

If you cannot leave the room

If you cannot leave the room, find the the safest place for you. Dial the reception for emergency and describe your situation. Prepare wet towels and sheets in case you need them.

A wet cloth is a good filter for breathing. Place it over your nose and mouth. Prevent smoke from coming into your room. Fill the bathtub with water that you can use to wet cloths and pour over the doors and walls.

There is a metal trash can next to the bathtub that can be used as a bucket. Wave a sheet out the window to alert firefighters that you are in the room. Do not break windows unless necessary because they can protect you from smoke. Stay calm and do not hurry unnecessarily. The hotel staff and firefighters are trained for emergency situations.

ISTRA – ZEMLJA VELIKIH VINA I BOGATE POVIJESTI

Istra je zemlja velike tradicije. Stari su Rimljani u svojem golemom carstvu pomno birali najbolja poljoprivredna područja i odabrali upravo Istru i njezinu plodnu, crvenu zemlju za uzgoj grožđa i maslina. Vino i svježe prešano maslinovo ulje slalo se u obližnju Akvileju, jedan od najvećih gradova i luka u Rimskom Carstvu, i odatle se odvozilo u Rim i ostale gradove Carstva.

Sredinom 19. stoljeća austrijski admiral Hans Birch Dahlerup odlučuje na ovom čudesno lijepom, ali pomalo zapuštenom i zaboravljenom poluotoku sagraditi najveću ratnu luku monarhije u Puli, što dovodi do procvata cijele regije. Pula će u sljedećih 20-ak godina postati jedno od mondenih središta Austrougarske Monarhije – uvodi se plinska rasvjeta, tramvaj, željeznica, grade se prekrasni hoteli, oficirske vile, gradska kupališta, zvjezdarnica, kazalište i brodogradilište. Krajem 19. stoljeća, na otočju Brijuni, bečki industrijalac Paul Kupelweiser gradi elitno ljetovalište i turističko središte koje će drugom polovicom 20. stoljeća postati ljetna rezidencija predsjednika bivše Jugoslavije, Josipa Broza Tita.

Sagrađena u bijelom istarskom kamenu, smještena nasuprot Brijuna, u neposrednoj blizini najveće austrougarske utvrde u ovom području, Stancija Meneghetti bila je mjesto za predah časnicima i njihovim gostima, mjesto na kome su mogli popiti čašu vina i pojesti dobar domaći sir i pršut. Nakon sloma Austrougarske na Stanciju se nažalost spustila patina zaborava i napuštenosti koja se digla tek 2001. godine kada je preuzimaju i potpuno preuređuju Romana i Miroslav Plišo koji su zasadili mlade masline i loze te započeli sasvim novo poglavlje njezine povijesti, koje i danas traje.

Meneghetti je smješten u neposrednoj blizini morske obale, tek 1.8 km udaljen od vlastite plaže. Slikoviti srednjovjekovni gradić Bale/Valle, koji se razvio oko bivše rimske utvrde Castrum Vallis, udaljen je 8 km, a za 15-ak minuta stiže se do Fažane, malog ribarskog mjesta poznatog po prirodnim ljepotama i golf terenu, i do luke iz koje kreće brod za Nacionalni park Brijuni. Rovinj, impozantan primjer venecijanske arhitekture i magnet za turiste, udaljen je 20 km, dok do najvećeg istarskog grada Pule i njezina čuvenog amfiteatra ima tek 18 km.

U istraživanju bilo koje od navedenih čari Istre rado će vam pomoći naš concierge i organizirati svaki korak kako biste se vi bezbrižno mogli prepustiti onome zbog čega ste ovdje – uživanju.

Želimo Vam ugodne trenutke odmora u našem hotelu te da doživite sve najbolje što Istra može ponuditi!

SIGURNOSNE INFORMACIJE

U slučaju požara

Hotel Meneghetti opremljen je automatskim adresabilnim vatrodojavnim sustavom i naši zaposlenici osposobljeni su za djelovanje u svim izvanrednim slučajevima.

Hotel je opremljen sredstvima za gašenje i dojavu požara (vatrogasni aparati, hidranti i ručni javljači požara). U slučaju požara ili neke druge izvanredne situacije, hotelski zaposlenici će Vas izvijestiti o načinu postupanja.

Na putu do vaše sobe

Predlažemo da se upoznate s nužnim izlazima za slučaj opasnosti. Zapamtite gdje se nalaze protupožarni ormari i ručni javljači požara.

Provjerite svoju sobu

Proučite plan evakuacije i način postupanja u slučaju požara koji se nalazi na vratima Vaše sobe s unutarnje strane. Na planu proučite najkraći put do nužnih izlaza. Prebrojte vrata od sobe do izlaza u slučaju opasnosti.

Što ako otkrijete požar?

Ako u svojoj sobi otkrijete požar, odmah ga pokušajte ugasiti i oglasite alarm na najbližem ručnom javljaču požara razbijanjem stakla te nazovite recepciju. U nastalom požaru nastojte dati što više informacija (točno mjesto, uzrok i intenzitet požara te je li tko zarobljen nastalom požaru).

Što kada se oglasi alarm?

Kada se oglasi alarm, nastojte ostati prisebni i slijedite upute koje će Vam priopćiti uprava hotela. U hitnim slučajevima hotelski će vam zaposlenici pomoći pri napuštanju hotela.

Evakuacija

Uzmite ključ, osobne dokumente i najnužnije predmete. Oprezno otvorite vrata i pazite na dim te slijedite svjetlosne oznake za izlaz u slučaju opasnosti. Ako je dim u hodniku gust, ostanite u sobi uz zatvorena vrata i čekajte daljnje upute.

U slučaju gustog dima krećite se u pognutom položaju ili puzeći kako biste izbjegli udisanje dima. Brojite vrata do izlaza u slučaju opasnosti, opipavajući zid u slučaju nedovoljne vidljivosti. Ako je stubište za izlaz u slučaju opasnosti slobodno, napustite hotel slijedeći upute koje dobivate preko razglasa ili od zaposlenika. Ako je stubište zadimljeno ili zahvaćeno vatrom, potražite drugo. Slijedite znakove za izlaz u slučaju opasnosti. Nemojte koristiti dizalo budući da osobe s invaliditetom imaju prednosti pri korištenju tog evakuacijskog puta.

Ako ne možete napustiti sobu

Ako ne možete izići, ostanite u svojoj sobi – odnosno na najsigurnijem mjestu za Vas. Nazovite recepciju za hitne slučajeve i opišite svoju situaciju. Pripremite mokre ručnike i plahte za slučaj potrebe. Mokra tkanina je dobar filter za disanje. Stavite je preko nosa i usta. Spriječite ulazak dima u sobu.

Napunite kadu vodom kako bi Vam poslužila za vlaženje tkanina i polijevanje vrata i zidova. Držite metalni koš za otpatke uz kadu. Mahanjem plahtom kroz prozor, skrenite pozornost vatrogascima da ste u sobi. Nemojte razbijati prozore ako to nije potrebno, jer vas mogu spasiti od dima. Ostanite prisebni, nemojte se nepotrebno žuriti. Zaposlenici i vatrogasci osposobljeni su za izvanredne situacije.
